- 3) Display parameters prepopulated based on element type. Some fields are mandatory.
- 4) Must save before continuing to builder
- 5) Admin sidebar is collapsed

Interactive Elements – Builder

- Add or edit questions to the element

The screenshot shows the 'mdBriefCase Admin' interface. At the top, there's a dark red header with 'mdBriefCase Admin' on the left and 'User' on the right. Below the header, the breadcrumb 'List of Projects / Project / Program' is visible. The main title is 'Why Can't My Patient Lose Weight? - Effective Obesity Management in Primary Care'. The 'Interactive Elements' tab is selected, showing a 'Landing Page' sub-tab. On the left, a sidebar contains a 'Builder' tab (highlighted with a blue circle 1) and a list of question types: Single Input, Checkbox (checked), Radio button, Dropdown, Comment, Ranking, Boolean, Matrix, Matching, Weighted Score, HTML, and Panel. A blue arrow (2) points from the 'Builder' tab to the main content area. The main content area has a 'Pre-Course Survey' section. At the top right of this section, there's a 'Locale' dropdown set to 'English' (highlighted with a blue circle 4) and a 'Save' button. Below this, there are two question types. The first is a multiple-choice question: '1. What is the World Health Organization (WHO) definition of obesity?' with four radio button options. A blue circle 3 highlights the 'Edit' button next to it. The second is a scale question: '2. Please answer the following questions on a scale of 1-3'. It contains two rows of questions, each with three radio button options labeled 'Column 1', 'Column 2', and 'Column 3'.
